

EVOLUTION™ ZONING SYSTEM

ROOM-TO-ROOM CONTROL

When you install the Evolution™ Connex™ control as part of a Bryant® Evolution zoning system, you have one-touch temperature control in up to eight separate rooms or zones within your home.

Customized Comfort

Separate control of multiple zones can significantly reduce hot and cold spots for more even, consistent comfort. Enjoy maximum efficiency with comfort precisely where and when you need it so you aren't spending money heating or cooling unused rooms.

Customized Zone Names

Creating a customized name for each zone makes it easier to monitor comfort levels or create new settings for the correct areas.

Zoned Ventilation Settings

To help optimize airflow, our patented fan control lets you set different fan speeds for your Evolution system at a different time schedule for each zone.

Flexible, Seven-Day Programmability

Maximize comfort and energy savings with a different comfort schedule in each zone.

Convenience and Control

A smart sensor or remote room sensor in each zone monitors individual zone temperatures and allows you to adjust the temperature setting for that zone.

Limited Warranty*

To the original owner, the Evolution zoning system is covered by a 10-year parts limited warranty upon timely registration.

The limited warranty period is five years if not registered within 90 days except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details.

* When installed as part of a Bryant Evolution zoning system. Control, smart sensor, room sensor and damper control module sold separately.

Zoned Comfort with the Evolution Connex Control*

The baby's room needs to be warm and cozy, the basement needs to be cool and dry, and the kitchen can be adjusted at any time. Zoning keeps the most commonly used areas of a home comfortable by delivering conditioned air where you need it most. Zoning can also offer increased energy saving benefits by delivering comfort to the areas of the home only where and when you need it.
