## Did you know?

**Did you know Robertshaw® universal products can help you streamline your inventory and workflow?**

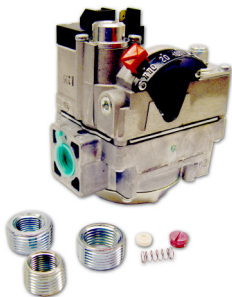

Power your business sales with Robertshaw universal products and kits. You can meet a multitude of contractor job requirements with significantly less inventory. Always have the right part, at the right time, for the right job, for the right price.

### 1. Universal Gas Valves

The 720-079 Universal Electronic Ignition Gas Valve Uni-Kit® is designed to work equally well on all of these applications:

- Intermittent pilot
- Direct spark
- Hot surface

Provides dual automatic valves with easy to install wiring connections and manual selector on top of the valve for easy access.

### 2. Universal Ignition Kits

The 780-001 and 780-002 kits feature a flame sense circuit that will work equally well on one rod (local sense) or two rod (remote sense) systems.

- Reduces service truck stock - freeing up valuable space and saving money
- Includes vent damper adaptor assembly
- Installs quickly, includes complete, detailed installation instructions

### 3. Universal Heating Accessories

#### Flame Sensors/Ignitors/Thermocouples

- The Universal Flame Sensor 10-760 offers 30" lead wire with a rod that can withstand 1800°F. Sensor rod is 4" long and can be cut and bent to match original unit.
- The Universal Ignitors 41-802N and 41-803N replace 130 ignitors currently found in 120V AC systems in the field. Mounting brackets and hardware are included to fit your universal applications.

- The Universal Thermocouple 1980 series kits offer a snap fit connector and hardware for easy installation. Available in many popular lengths.

### 4. Universal Air Pressure Sensing Kit

The Robertshaw Universal Air Pressure Sensing Switch, 2374-510, and optional probe kit, 10-650, add flexibility and options to our pressure sensing switch offering.

- Conditioned air filters that accumulate particulate matter are used to sense the differential pressure or airflow drop across the filter.
- Defrost cycle is initiated by sensing differential pressure or airflow drop across the refrigeration coils when they ice.
- On gas-fired units, the switch senses draft down from the blower. The switch actuation allows ignition start-up or system shutdown upon insufficient draft.

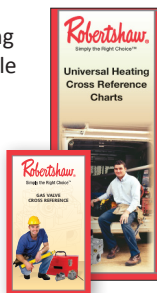

## Materials to Support Heating Season

### Robertshaw® Universal Heating Visor Card

Check out the updated Robertshaw Universal Heating Cross Reference Charts! Contractors love the versatile visor card layout and wholesalers use it to find replacement heating controls. This latest version includes our entire ignitor offering of Universal, Silicon Nitride and Silicon Carbide Ignitors.

- Order your copies today! Order 150-2130

### Robertshaw Gas Valve Cross Reference

The popular and conveniently sized Gas Valve Cross Reference pocket guide is organized to help you find a replacement gas valve in a snap! Use this comprehensive guide for an overview of Robertshaw gas valves available and a full cross reference showing OEM part numbers crossed to the Robertshaw replacement valves.

- Order your copies today! Order 150-2320

## Merchandising Materials

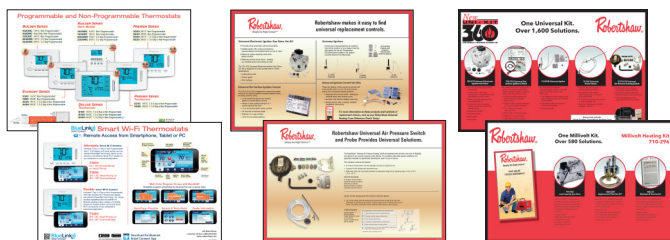

To help sell Robertshaw®, Ranco® and Paragon® branded products, there are multiple merchandising materials available. Ask your sales rep today about floor displays, banners, and counter mats featuring popular products.

Robertshaw Counter mat with window (150-2565) shown with Silicon Carbide Ignitor insert (150-2296)

### Counter mat inserts for Heating Season

- Braeburn Smart Wi-Fi Thermostats - 2 sided Order 150-2615
- Braeburn Programmable and Non-Programmable Thermostats with Comparison Chart Order 150-2616
- Universal Heating controls Order 150-2295
- Silicon Carbide Ignitors Order 150-2296
- Universal Air Pressure Switch and Probe Order 150-2323
- Uni-Kit 360 Universal Heating Repair Kit Order 150-2336
- Millivolt Heating Kit 710-296 Order 150-2429

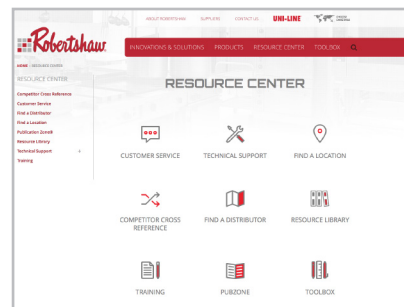

## Robertshaw's Resource Center can support all your needs

Robertshaw's multi-lingual website has a wealth of information to support your HVACR business. Our Resource Center, located at [www.Robertshaw.com](http://www.Robertshaw.com), is always available.

### Resource Library

Our Resource Library is designed to give you quick and instant access to product information. Organized by product categories and arranged by part number or name, the drop-down menus connect you to multiple resources such as brochures, images, logos, manuals, sell sheets, the Uni-Line® catalog, and more.

### Technical Support

#### Call Us

Our Technical Support Team is readily available to answer your incoming call (typically within one minute) and are focused on getting you the information you and your customers need quickly.

#### FAQ

Additional resources include our detailed Frequently Asked Questions (FAQs) section, where you are given instant access to some commonly asked questions. Not finding your question on our list?

#### Email Us

In addition to calling the technical support team, you have the option to send us an email query with your particular question. You will receive a reply within one business day.

### Competitor Cross Reference

Need to find a replacement part? Our easy-to-use Cross Reference tool can help you cross competitor product numbers to the Uni-Line replacement part. In addition, you can link to Uni-Line product details and find a distributor to buy the products you need.
