

RF Model Series

Residential Water Source Heat Pumps

Engineering Submittal Sheet

BOSCH

- ▶ 0.5 to 6 Ton Capacities
- ▶ Single and Two Stage High Efficiency and Compact Cabinet
- ▶ New and Improved Scroll and Rotary Compressors
- ▶ Brand-New Unit Design
- ▶ Low GWP Ready (R-454B Refrigerant)

Standard Features, Factory Installed Options, and Field Install Accessories

Standard Features

- ▶ Available in Horizontal, Vertical, and Counterflow Cabinets
 - Constructed using painted steel
 - Standard hanging bracket kits on HZ units for suspending the unit from field supplied hanger rods
- ▶ Single Stage (007-018) and Two Stage (024-070)
 - Scroll and Rotary Compressors
- ▶ ECM constant torque (007-012) ECM constant airflow (015-070) blowers
- ▶ Unit Configuration
 - Left hand or right hand return air
 - Top, end, or bottom supply air
 - Copper or Cupro-Nickel Coaxial Coil
- ▶ 2" MERV 8 filter with 4-sided filter rack
- ▶ 1/2" Dual Density Fiber Insulation
 - 1.5 lb./cu.ft. density micromat fiberglass insulation for both thermal insulation and noise reduction
 - Non-combustible, non-hydroscopic and does not support fungal growth
 - Meets NFPA 90A and 90B for fire protection
 - Meets the GREENGUARD Indoor Air Quality Standard
- ▶ Compressors
 - Floating compressor base pan for quiet operation
 - Rotary type compressors on sizes 007 through 018
 - Scroll type compressors on sizes 024 through 070
- ▶ TXV (Thermal Expansion Valve)
 - Improves refrigerant management and efficiencies
- ▶ Reliability - Durability – Serviceability
 - Slide out blower (VT Units Only)
 - Improved air coil serviceability
 - Completely serviceable from front of unit as well as isolated controls allow the unit to be serviced during operation
- ▶ DuoGuard™ Evaporator Coil
 - Tin Electro-Plated Copper Tubing Hair Pins with high-tech polymer coated Aluminum fins will protect the evaporator coil from most forms of corrosive elements in the airstream
- ▶ Electronic Circuit Board UPM
 - The electronic circuit board provides protection with:
 - Random Start of Unit
 - Anti-Short Cycling (5 minute delay)
 - Alarm communicating output
 - Low pressure switch bypass at cold water start up
 - It also monitors and communicates standard safety features/ alerts/ operation/ protection:
 - Low Pressure Switch
 - High Pressure Switch
 - Evaporator Freeze Protection
 - Water Coil Freeze Switch
 - Condensate Overflow Switch
 - This circuit board can communicate with a Bosch thermostat that alerts the customer of adverse conditions
- ▶ 75 VA Transformer
- ▶ Warranty
 - 10 year all parts limited warranty
 - 10 year compressor limited warranty
 - For full warranty details: <https://www.bosch-homecomfort.com/us/en/residential/service/product-warranty-library/heat-pump-geothermal-warranty-documents/>

Standard Features, Factory Installed Options, and Field Install Accessories

Standard Features Continued

- ▶ Field Configurable Horizontal Discharge Air Conversion
 - The horizontal conversion allows end blow to straight through conversion of discharge air, as factory installed straight through configuration for HZ units is not available.
- ▶ Water Connections
 - All water connections are heavy duty bronze FPT fittings securely fastened to the unit corner post

Factory Installed Options

- ▶ Cupro-nickel Coil
 - Recommended in conditions anticipating moderate scale formation or in brackish water

Field Install Accessories

- ▶ Thermostats
 - Bosch thermostats are fully customized to meet your individual needs. Bosch offers communicating thermostats that can display alert messages without having to go to the unit.
- ▶ Externally Mounted Duct Heater Kits
- ▶ Swivel Water Connections
 - 3/4" or 1" FPT Swivel Water Connection
- ▶ Pump/Valve Relay Kit
 - This relay is used to energize a supply pump or solenoid valve when there is a call for compressor operation. This relay can be used to switch either high or low voltage power.
- ▶ SmartStart Assist Kit
 - An option which provides a means of reducing inrush currents at compressor startup. Light flickering is eliminated, and a smooth start is achieved (only available on scroll compressor models).
- ▶ Stainless Steel Hose Kits
 - Available in various lengths and diameters depending on the need for your application.
- ▶ Flow Center Kits

Notes: During fan only operation air flow is 69% of tabulated value.
When passive dehumidification mode is enabled air flow is 85% of tabulated value.

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

Extended Range - Anti-freeze required
 AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.
 Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.
 Unit performance may be interpolated. Extrapolation is not allowed.
 For conditions other than rating conditions provided, consult the BST selection software.
 Ratings below 40°F are with a methanol solution.
DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.
