

Fernco Donuts

Sewer pipe compression joint seal.

Fernco Donuts are flexible PVC donut-shaped rings for the compression sealing of sewer pipe joints and DWV connections such as sockets, hubs, bells and spigots. They offer all of the properties necessary to create a strong, lasting joint.

Fernco Donuts are available in hundreds of sizes and configurations for use with most brands and types of piping material.

How To Order

Donuts can be ordered by giving the size, material and type of connection you want to make. Donuts require specific information on the manufacturer of pipe. Our sales coordinators are trained to assist you.

Donuts can also be ordered by dimensions. Donuts seal by compression and have much less dimensional range than couplings. The bell, hub or socket dimensions must be given within 1/32" accuracy.

For plain end pipe connections, use a Fernco Flexible Coupling - Listed on pages 14-15.
