

# Goliath FURNACE RISERS

## One of the Strongest, Most Durable Furnace Riser Kits Available

Goliath Furnace Risers (GFR) are the perfect solution for any furnace installation. GFRs raise furnaces providing the necessary clearance to accommodate piping and p-traps. Available in three sizes to accommodate a variety of furnace installation needs. Installation is quick and easy, the GFRs are made to fit either lengthwise or width wise in our Titan pans or fabricated metal pans. DexElar® material is 10X stronger than competing metal risers.

Goliath Furnace Riser shown with Titan Secondary Drain Pan

### Key Features

- **Constructed of DexElar®**, the same durable material as Goliath and Titan HVAC secondary drain pans.
- **Resist rust and cracking** and provide 10x the strength of metal risers.
- **Compatible with our Titan secondary drain pans**, metal pans or can be used as a standalone.
- **Available vibration isolators** quiet noisy furnace units.
