

ICM870-32A Soft Start

before you buy – see a side by side comparison

Integrates compressor or motor in-rush current over startup time, reducing peak current demand on a power supply source by up to 70%.

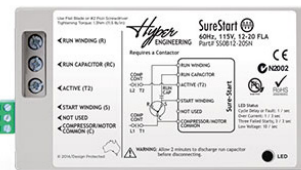

ICM870-32A

FEATURES

- Reduces in-rush current/draw necessary at startup by up to 70%
- Prolong the life of the A/C by reducing excessive torque, wear and tear
- Reduce loud noises, light flickering, and breaker trips
- Over-current protection
- Over/under voltage monitoring

Reduce in-rush current/draw necessary at startup by up to 70%	up to 70%	up to 70%	up to 50%
Made in USA	•		
Prolong the life of A/C by reducing excessive torque, wear and tear	•	•	•
UL Listed for Residential A/C Units	•		
Reduce loud noises, light flickering and breaker trips	•	•	•
Built-in self-learning algorithm	•	•	•
Over/under-voltage protection	•		
Included factory wired leads	•		
LED fault indicators	•	•	•
Ultrasonic sealed tamper-proof enclosure	•		
Installation hardware is included	•	•	•
US based factory technical support	•		
Molded mounted brackets	•
