

AM11-5PP Series

CLEAN COMFORT™ INDOOR AIR ESSENTIALS

Description

The Clean Comfort™ AM11-5PP Series of MERV 11 media air cleaners for residential applications helps remove a wide range of airborne particles as small as 0.3 micron.

- Helps protect and prolong the operating efficiency of the heating and cooling equipment
- Space saving design for vertical installations, reduces installation space by 6-8 inches
- Eliminates the need for a 90° duct adapter, as it works as a turning vane providing even distribution across the media filter

Standard Features

- Includes **MERV 11** media filter, rated at 492 feet/ minute, removes airborne particles down to 0.3 micron
- Filter design features a structured density gradient with an electret charge for higher initial and sustained efficiency over the life of the filter
- Filter material is constructed of cellulose-free, hydrophobic polyolefin fibers that will not shred or absorb moisture
- Extra deep, 5¼ inch pleated filter with long filter life and low static pressure
- Filter has a tight fit with the cabinet ensuring minimal air bypass so virtually all of the air in the return duct is treated
- Pre-assembled filter frame is made of strong beverage board. Quick and easy to change filter when needed
- Heavy-gauge, galvanized-steel cabinet and powdercoat paint finish on one of the cabinet doors resist corrosion and provide trouble-free installation
- Maintenance-free except for filter replacement
- No electrical hook-up required
- Adjustable inlet duct opening eliminates need for field-installed transitions, significantly reducing installation time
- Two, pull-out doors with handle allow filter access from either side
