

# Tape Solutions for the HVAC Industry

**Shurtape**  
INDUSTRIAL

# YOU DEMAND FULL SYSTEM CLOSURE.

And rely on tape to get the job done quickly and efficiently. That's why we offer a full portfolio of foil, film and composite HVAC tapes that deliver the product features and full system closure you demand. With options to meet the code, perform in the cold, and seal a broad range of HVAC materials, Shurtape has you covered with the tapes you need to ensure airtight performance you can be proud of.

In addition to providing the tools you need to get the job done, we have also developed resources dedicated to keeping you up to date on industry trends and best practices – to help you exceed expectations on the job.

Our educational website, TapeUniversity.com, is your leading online resource for all things tape. We're committed to building the best learning experience by providing the tape industry's most comprehensive place to learn about the past, present and future trends on choosing and using tape. From blog posts and articles to video demonstrations, Tape University® serves to answer the industry's most commonly asked questions about tape – and invites you to ask your own.

# TAPE SOLUTIONS FOR HVAC

## AF 099

UL 181 A-P/B-FX Listed aluminum foil HVAC tape for joining and sealing joints, connections and seams on rigid fiberglass ductboard and flexible air duct. A tape that “does it all,” AF 099 is engineered to form airtight bonds on joints and seams in temperatures ranging from -20 F to 260 F and in humid conditions.

## AF 914CT

Lined cold temperature aluminum foil tape for joining and sealing aluminum-backed and fibrous insulation and metal ductwork, and to repair metal and sheet metal. Designed with an acrylic adhesive and tested in accordance with UL 723, AF 914CT delivers an airtight seal in temperatures ranging from -20 F to 260 F.

## AF 975CT

Cold temperature aluminum foil tape for use in temperatures ranging from -20 F to 260 F when joining and sealing aluminum-backed or fibrous insulation and metal ductwork, as well as when repairing metal and sheet metal. AF 975CT is lined, designed with an acrylic adhesive, tested in accordance with UL 723 and delivers an airtight seal every time.

## AF 984CT

UL 723 tested Foil/Scrim/Kraft (FSK) tape for sealing seams in scrim-reinforced duct insulation. Ideal for applications that demand a maximum-strength tape, AF 984CT is lined, offers an acrylic adhesive and can be used in temperatures ranging from -20 F to 260 F.

## AF 990CT

All Service Jacket (ASJ) tape for use in cold and dual temperature systems to seal, seam and join scrim-reinforced pipe and duct insulation. AF 990CT is lined and offers an acrylic adhesive, performs in temperatures ranging from -20 F to 260 F and is tested in accordance with UL 723.

## AF 995CT

All Service Jacket (ASJ) tape for sealing butt joints on ductboard and pipe insulation wrapped with ASJ+ faced backing. Lined and tested in accordance with UL 723, AF 995CT is constructed with a white poly-scrim-foil backing that inhibits mold growth and is DECA free, in addition to an all-weather acrylic adhesive that performs in temperatures ranging from -20 F to 260 F.

## DC 181

UL 181B-FX Listed film tape for use on Class 1 Flex Duct for connecting, joining, sealing and patching flexible air ductwork. DC 181 features an acrylic adhesive system, high performance in temperatures ranging from -10 F to 210 F, and is clearly printed with the UL Listing to ensure every job is code compliant.

## LS 300

UV-resistant line set tape for taping outdoor HVAC components. An economical solution that holds strong outdoors, LS 300 is durable, easy to unwind, and can be applied in a variety of temperature ranges and used in humid conditions.

## PW 100

General purpose, corrosion-resistant PVC tape for use on under and above ground pipe installations. PW 100 pipe wrap tape offers excellent moisture resistance and conformability to protect metal and plastic piping.

## EV 57

General purpose grade, 7 mil vinyl insulating tape for use in a variety of mechanical and electrical applications, including color-coding and phasing tasks. UL Listed and CSA Approved, EV 57 is a highly conformable, lead free and flame retardant electrical tape for use indoors and out.

## EV 77

Professional grade, 7 mil vinyl insulating tape for all-weather insulating and splicing applications, as well as color-coding and phase identification, in temperatures ranging from 0 F to 220 F. UL Listed and CSA Approved, EV 77 electrical tape is lead free, flame retardant, and constructed with a specialized PVC backing that contractors demand.

## VP 410

UV-resistant SPVC line set tape used in the HVAC industry to wrap line sets, seam closed cell sponge insulation, and insulate air ducts and underground pipes. VP 410 is engineered with a non-corrosive adhesive and flexible backing; can be used in extensive temperature, moisture and humid conditions; and meets OSHA color-coding requirements.

## P- 628

Professional grade gaffer's tape used in the HVAC industry. Durable P- 628 offers a combination of excellent holding power, conformability and high tensile strength to get the job done quickly and efficiently.

## PC 622

Premium grade cloth duct tape used for sealing and seaming duct systems in the HVAC industry. PC 622 combines high tensile strength, excellent holding power and conformability to deliver a tape solution that can withstand the rigors of the job.

## PC 857

UL 181B-FX Listed and printed cloth duct tape used to seal, seam and join Class 1 Flex Duct, even when surfaces are rougher or not fully clean. PC 857 offers high adhesion, superior shear strength and excellent tearability, and is recommended for applications that must meet or exceed the strict requirements of UL, flex duct manufacturers and city and state codes.

## SF 682/683

ShurFLEX® HVAC professional grade metalized cloth duct tape designed for airtight and moisture-free seaming, connecting, splicing, patching and sealing of sheet metal and flex duct, rigid ductboards, air vents, insulation, fibrous filter banks and pollution collection systems. For superior performance, SF 682 and 683 are easy to use, are hand tearable and designed in color and appearance to match sheet metal, flex duct and ductboard.

## PC 6

PC 6 Duck Pro® by Shurtape® is a co-extruded utility grade cloth duct tape for non-critical, general use applications, including packaging, bundling, sealing, repairing, holding and waterproofing.

## PC 9S

PC 9S Duck Pro® by Shurtape® is a general purpose, contractor grade cloth duct tape featuring aggressive adhesive and cold temperature performance for sealing, seaming, repairing, holding and waterproofing applications, as well as for tasks in the restoration industry, such as holding poly-sheeting.

## PC 9C

PC 9C Duck Pro® by Shurtape® is a general purpose, contractor grade cloth duct tape available in a wide variety of colors for sealing, seaming, repairing, holding and industrial color-coding and splicing applications.

\*Co-Ex Colors: Black, White and Red

## PC 621

PC 621 Duck Pro® by Shurtape® is a heavy duty cloth duct tape designed for HVAC applications to hold, seal and seam sheet metal and flex duct, exhaust vents and preformed insulation, and can also be used in industrial applications for holding, splicing, protecting and packaging.

## PC 618S

PC 618S Duck Pro® by Shurtape® is a co-extruded professional grade, industrial cloth duct tape for holding, securing, seaming, repairing, bundling, splicing, packaging and masking in HVAC, industrial, commercial, utilities, trucking and automotive applications, and can also be used as a condensation barrier in appliance assemblies.

## PC 618C

PC 618C Duck Pro® by Shurtape® is a professional grade, industrial cloth duct tape, available in a wide variety of colors, for holding, securing, seaming, repairing, bundling, splicing, packaging, color-coding and masking in HVAC, industrial, commercial, utilities, trucking and automotive applications, and can also be used as a condensation barrier in appliance assemblies.

## PC 609

PC 609 Duck Pro® by Shurtape® is a professional grade cloth duct tape for use in a variety of industries, including in the HVAC industry to repair thermal insulation and seal metal ductwork; in the manufactured housing industry to seam bottom boards and for patching, seaming and sealing; and general purpose use for packaging, bundling, holding, wrapping and waterproofing.

## SF 685

ShurMASTIC® roll mastic tape for indoor or outdoor use to seal sheet metal and PVC-coated duct in temperatures up to 200 F. SF 685 is a lined, paintable foil tape that's tested in accordance with UL 723 and delivers permanent, airtight and water-resistant seals.

## SF 686

ShurMASTIC® butyl foil tape used for airtight and moisture-free sealing of Class 1 Flex Duct, sheet metal, PVC-coated duct and duct wrap vapor barriers, and is also approved for subgrade application on PVC-coated duct. A paintable, UL 181B-FX Listed mastic on a roll for indoor or outdoor use, SF 686 is designed with a butyl rubber adhesive system that can withstand wide temperature variances once applied.

## MJ 100

Open weave fiberglass mesh tape used for reinforcing joints, seams and connections when paint-on mastic is used in HVAC applications, and can also be applied to drywall seams before the application of joint compound. MJ 100 drywall tape is self-adhering and offers superior strength compared to paper.

## BR CODE™

STICK. SCAN. CONNECT™

## PSL BR

Preprinted, scannable labels for permanent use indoors and out on flat surfaces. PSL BR offers an individual label format for easy use and adheres permanently to a range of surfaces and substrates. Use with the BitRip® app to connect physical assets to digital data.

### COLOR(S)

## PXL BR

Heavy duty, permanent scannable labels for indoor and outdoor applications that demand extreme durability and performance. Recommended for use on flat surfaces, PXL BR offers an individual label format for easy use, in addition to weather and chemical resistance. Use with the BitRip® app to connect physical assets to digital data.
