

MXZ SERIES BRANCH BOX ENCLOSURE

PRODUCT GUIDE

Product Overview

BBE-1 Branch Box Enclosure meets NEMA Type 3R rating for protective enclosures. This design provides mounting location flexibility.

The enclosure ships knocked down, requiring a minimum size shipping container. This allows the enclosure to be built up around the Branch Box for ease of installation.

The BBE-1 adjusts to work with either the three or five port Branch Boxes. It can be mounted vertically or horizontally and like the Branch Box is reversible to pipe from either side.

Features

- ▶ NEMA Type 3R certified
- ▶ 20 ga galvanized steel enclosure
- ▶ Polyester powder coat
- ▶ Color matches MXZ outdoor units
