

**RECTORSEAL**

$$30, 40, 50 \text{ gal} = 17\frac{1}{2}'' \times 25\frac{1}{2}'' \rightarrow 97750$$
$$75, 100 \text{ gal} = 17\frac{1}{2}'' \times 27\frac{1}{2}'' \rightarrow 97753$$

## Water Heater Stands

RectorSeal® Water Heater Stands comply  
with the standards of

**The National Fire Protection Association**

(National Fuel Gas Code NFPA 54-1992 Codes 5.1.8, 5.1.9, and 5.1.21)

Designed to elevate  
water heater burner  
18 inches as required by  
code agencies when gas  
water heaters are placed  
in garages or other areas  
where combustible  
materials are stored

Fits 30, 40, and 50  
gallon water heaters (75  
and 100 gallon stands  
available upon request)

No assembly required

Live load tested to  
2000 lbs

Made of  $\frac{3}{4}$  inch  
welded square  
carbon steel tubing

Can be used for elevating  
gas and electric water  
heaters in flood prone  
areas such as basements

Leveling Feet models  
available for uneven  
surfaces

Black enamel finish

All models designed to  
hold a 20 inch drain pan

Soft vinyl caps and plugs  
for safety on upper and  
lower end of support legs

Floor Bolt models available  
for seismic regions

Go with the name you've trusted for years . . .
