

SST2™

SYSTEM SERVICE TRANSITION

The industry's only compact, knock-down, system transition with a true access door, large enough to allow for proper inspections and maintenance.

NO MORE SMALL "INSPECTION" DOORS!

Extra-large door allows true access for inspections, cleaning, leak detection, heat exchanger inspection, and system checks.

OPTIMIZED SEER PERFORMANCE PLUS EASY SERVICE SOLUTION

The SST2™ System Service Transition solution allows for quick and efficient HVAC system service, while providing optimal SEER performance with 100% airflow.

GENERAL

The SST2™ is designed to optimize SEER performance providing the system with 100% airflow. The removable, insulated, access door, gives the servicing contractor the space they need to properly inspect, clean, diagnose and maintain the evaporator coil and the furnace heat exchanger. The SST2™ provides true access to the system critical parts without disassembly or cutting into the system.

SPECIFICATIONS

MODEL #	PART #	Dimension A (In)	DIMENSION B (In)	WEIGHT (LB)
SST2 AA	19830	14.00	14.25	9.00
SST2 AB	19831	14.25	17.75	9.50
SST2 AC	19832	14.25	21.25	9.50
SST2 BB	19833	17.50	17.75	9.50
SST2 BC	19834	17.75	21.25	10.00
SST2 BD	19835	17.75	24.75	10.00
SST2 CC	19836	21.00	21.25	10.00
SST2 CD	19837	21.25	24.75	10.50
SST2 DD	19838	24.50	24.75	10.50

*All sizes ship in knock-down format, 4" x 26" x 10". Specifications subject to change without notice.

IAQ READY

The SST2™ comes pre-fabricated for a variety of Dust Free® indoor air quality product installations.

Active™ and Carbon™ Air Purifiers

Lightstick™ and Lightstick™ Plus
Germicidal UV Systems

FEATURES

- **Optimized SEER performance and air distribution.** The SST2™ is designed to provide 100% airflow without block-offs or restrictions. **Compatible with 2023 SEER2 standards.**
- **Large, sealed, access door for easy system inspection and maintenance.** The SST2™ provides true access to critical system components.
- **Saves time and labor.** No more time spent dismantling or cutting into a system for service. No more time spent re-assembling and resealing the system afterward.
- **“Knock-down” format makes the SST2™ easy to carry into tight spaces and field assemble in minutes.**
- **Door and panels come lined with foil-backed, UV-safe, R4.3 insulation that meets application standards and code compliance for HVAC accessories.**
- **Available in 9 different sizes for upflow, horizontal, attic, and basement applications.**
- **Pre-fabricated for easy installation of Dust Free® indoor air quality products.**
