HVAC Diffusers and accessories from Airtec

Reinventing HVAC ceiling diffusion.

With a patented one piece grille, box, damper combination and a lightning quick 73 second installation time, the MV Series of diffusers by Airtec is designed specifically for the job-site and the contractor. Compare the performance, fit, finish and the 80% reduction in installation time of our MV Classic to understand why they are quickly becoming the new industry standard.

For your premium installations and discriminating homeowners, MV Retro combines contemporary polymer construction with the appearance and feel of true antique cast iron styled diffusers, without the cost and weight.

Today, our evolution continues. Smart, strong MH TuffBox polymer register boxes and limited clearance polymer diffuser choices are proven to deliver quicker installation time and more job site options than their cumbersome metal counterparts.

We don't waste your time. We save you time and keep you ahead of your competitors. Go with Airtec, the leader in high-tech quick install polymer diffusers and accessories.

Our patented 73 second

MV Classic

GRILLE • DAMPER • BOX

Think fast.

Work smart.

"My distributor told me about the MV 73 second diffuser install. He gave me one to try. That was it. I haven't installed a metal diffuser since. The MV air diffuser is virtually air tight. The one piece design eliminates the need for tedious mastic and external sealers, and cuts attic time, too. Diffuser installation is no longer a two man job. My labor estimates are more competitive and I pocket the profit."

3-way

2-way

diffuser install is the quickest in the trade.

Strong, Versatile, Quiet. MV Classic is molded with professional grade polymers for long lasting durability. Choose from five grille styles to deliver the optimum air flow and movement pattern for any room.

Stepped collar tears off easily to enlarge duct size to maximize job site flexibility. Virtually air tight construction insures efficient and quiet air delivery.

Retro style.

Same innovative design.

"When our builder offered us the MV Retro upgrade. We knew it would fit beautifully into our new home. There's an added sense of warmth missing with contemporary diffusers."

beautiful for your discriminating customer.

For Premium Installations. Distinguish yourself from your competition with MV Retro reproduction antique styled air diffusers. Your discerning customer can have the look and feel of a reproduction cast iron grille without the high cost and weight. Simulated cast iron texturing is scratch and rust resistant. Authentic handle turns easily for full range of air flow adjustment. MV Retro offers the same advanced technology and labor saving installation time as the standard Airtec diffuser line. Available in white and black. Stepped boot design, 2 sizes accommodate from 4" to 8" diameter ductwork.

Limited clearance diffusers

GRILLE WITH DAMPER

Model GRD grille/damper combination for low clearance side or top entry applications. Same construction as MV diffusers but with no boot. Standard 8" size only. Available in all five grille styles.

GRILLE ONLY

Model GR grille only. All styles and sizes of both MV Classic and MV Retro grilles are available. Does not include boot or damper.

Ceiling support Flanges

ROUGH IN FLANGES

Model RCF Designed for new construction. Our RCF flashing can be fastened to rough framing. It has a 3/8" lip that drops below the ceiling, requiring dry wall installers to cut the hole for you. RCF flanges are available for both 16" and 24" on center framing.

MODEL	DESCRIPTION	L	W	H	CTN QTY	CTN WT
RCF16	16"O/C - 9 1/4"hole	16"	12"	3/8"	50	37 lbs.
RCF24	24"O/C - 9 1/4"hole	23 5/8"	12"	3/8"	25	38 lbs.
RCF16S	16"O/C - 7"hole	16"	12"	3/8"	50	48 lbs.
RCF24S	24"O/C - 7"hole	23 5/8"	12"	3/8"	25	39 lbs.

DROP CEILING FLANGES

Model DCF
The DCF will increase strength and performance for lay in type ceiling applications by transferring weight onto the T-bars. This prevents tiles from sagging over time.

MODEL	DESCRIPTION	L	W	H	CTN QTY	CTN WT
DCF	24"O/C - 9 1/4"hole	23 5/8"	12"	2"	25	45 lbs.
DCFS	24"O/C - 7"hole	23 5/8"	12"	2"	25	48 lbs.

*All throw measurements are made from the center of the grille to a terminal velocity of 50 feet per minute. Direction determined by grille profile. .

**Noise level of any diffuser is directly related to face velocity. As a general rule face velocity should be under 800 FPM for residential applications. The MV diffuser with its one piece molded design, outperforms comparable diffusers causing less turbulence and noise.

one piece durable
polymer shell. Molded
design is virtually air
tight to deliver 100%
of the air flow passing
through it.

MHL

8"

9"

10"

No measuring.
No guesswork.
5/8" standoffs provide correct depth to
accommodate strapping or furring used
with drywall. Secure using screw holes
provided or simply screw anywhere
through the inside into framing.
The TuffBox tough polymer
construction can take it!

mer register box for HVAC systems.

ORDERING INFORMATION

MODEL	DESCRIPTION	CTN QTY	CTN WT
MHS	6x6" Register Box 4,5,6" collars	16	15 lbs.
MH	8x8" Register Box 6,7,8" collars	10	12.2 lbs.
MHL	10x10" Register Box 8,9,10" collars	8	12 lbs.

Adaptable. Each TuffBox utilizes innovative stepped design to accommodate three duct sizes.

Quick breakaway collars allow on-site adjustment, and labor savings. Each collar is 1 3/8" and beaded to hold flexible duct in place while strap is secured.

Air tight construction.

Flange is flexible to conform to drywall backing virtually eliminating leakage between grille and box.
